Kentucky Integrated Strategy Launch Meeting Agenda
September 29, 2011
Embassy Suites, Lexington KY

9:00-9:30 **Registration**

9:30 **Welcome & Introductions**
Cindy Parker, Integration Grant Project Manager, KDE

9:40 **Welcome and Overview of KY's Integrated Strategy for College & Career Readiness**
Dr. Terry Holliday, Commissioner of Education, KDE

9:50 **Welcome and Comments**
Teresa Rivero, Senior Program Officer, Bill & Melinda Gates Foundation (BMGF)

10:00 **Integration Grant Goals & Activities**
Felicia Cumings Smith, Associate Commissioner, Office of Next Generation Learners, KDE

10:15 **Overview of Teacher Professional Growth & Effectiveness System**
Michael Dailey, Director, Division of Next Generation Professionals, KDE

10:30 **Literacy Design Collaborative Framework and Tools**
Stacy Galiatsos, LDC

11:30 **Lunch Buffet**

12:30 **Mathematics Formative Assessment Lessons**
Ann Shannon & teachers

1:30 **Break**

1:45 **Measures of Effective Teaching**
Steve Cantrell, Senior Program Officer, BMGF

2:45 **District Team Discussion**

3:10 **Reflections/Next Steps/Evaluations**
Felicia Cumings Smith

Session	Learning Goal
Overview of KY's Integrated Strategy for College & Career Readiness *Dr. Terry Holliday, Commissioner of Education, KDE*	Participants will understand how the Integrated Strategy grant work fits into the Unbridled Learning goals. Participants will understand how the Integrated Strategy will inform policy and practices around highly effective teaching and implementation of KCAS and data systems, which will inform a system for the rest of the state.
Integration Grant Goals & Activities *Felicia Cumings Smith, Associate Commissioner, Office of Next Generation Learners, KDE*	Participants can identify that: • The Integration grant is part of an overall strategy to support implementation of the KCAS and effective teaching • their district will serve as a pilot site for integrating KCAS instructional tools with a teacher effectiveness system • the LDC/MDC resources are teacher supports and instructional strategies with built in flexibility for teachers to determine what works best in their classrooms for their students • the instructional tools emphasize literacy across the content areas and math formative assessment lessons
Teacher Professional Growth & Effectiveness System *Michael Dailey, Director, Division of Next Generation Professionals, KDE*	Participants can identify the research base supporting the impact effective teachers have on students. Participants will understand that the grant districts will inform multiple measures of the system,
Literacy Design Collaborative Framework and Tools *Stacy Galiatsos, LDC*	Participants understand an LDC task and how it supports implementation of the KCAS for ELA and Literacy in Science, Social Studies/History & Technical Areas. Participants can identify how an LDC task can be used formatively as well as a common assessment.
Mathematics Formative Assessment Lessons *Ann Shannon & teachers*	Participants understand a math FAL and how it supports implementation of the KCAS for mathematics. Participants can identify how an LDC task can be used formatively as well as a common assessment.
Measures of Effective Teaching *Steve Cantrell, Senior Program Officer, BMGF*	Participants will understand how their participation in the Integration grant will provide information about what factors are most meaningful, valid and reliable in measuring teacher effectiveness.
